hese, however will not last long, and

those who have not secured tickets should secure them today from the vice-president of the association, Mr. Ed. Dill. 107 South Main street. The association is growing in num-bers and popularity every year and this year's banquet promises to be the larg-est and most successful ever given. It is the aim of the committee in charge to do away, in some degree at least, the suffices and formality that have characturized some of the previous banquete and make this one long to be remembered, not only for the excellence of the banquet itself, but also for the good social time enjoyed by all present.

As the time for each annual banquet represents every alumnus recalls mem-

WILL BE NONE BETTER Dold Will be Able to Kill 2,400 Hogs in a Day.

When Superintendent Charles Darrigrand of the Jacob Dold Packing company asked a reporter for the Eagle last evening to get into the electric elevator vision of the Milwaukee and St. Paul and ride up to see the work that was being done, they went clear to the top

of the big cooler.

The first thing that impressed the reporter was that the building did not look so very big when on the ground, but when he was on top and looked down it seemed to be above the church steeples and all the public buildings of the city. When he looked away north toward the plow works and Valley Center the reporter saw that Chisholm creek was lost on the great body of water that covered the country. There were thousands of acres covered with water. When Mr. Darrigrand and the reporter

came down to the sixth floor after view-ing the flood from the top of the building the superintendent led the way along a narrow passage way on the north side of the building and stopping, he ran his thumbs into his trousers pockets until they stood out in the shape of a kite, and said: "Just cast your optics along that. The reporter looked down what seems a grand hallway in some palace, all is luminated with locandescent lights.

There are six of these immense coolers

and each one will hold 800 hogs and, as the hogs need to be left in the cooler two days, it will be seen that Dold can kill and take care of 2400 hogs each day

Some idea of the immonsts of the work, he done by these six chill retems when is stated that each one of them control M.W. feet of brine pipe. This impense cooling machine will enable the perature to keep the chill recess at a superstate of 20 degrees shows zero all to year round if desired.

TOO MUCH SEWING

WOMEN SHOULD BE CAREFUL NOT TO OVERDO THEM-SELVES.

The Experience of Mrs. Prazak, Wife of the Town Clerk of Millersville, Minnesota.

The woman with the responsibility of a house and family on her shoulders has always been given to overdoing herself. As a result almost every day we hear of one breaking down. Her nerves have given way or her strength has falled, Such was the experience of Mrs. Prazak, wife of J. M. Pruzak, town clerk of Millersville, Douglas Co., Minn. She says:

"I had been sewing a great deal and it was too much for me. Between that and my other household duties I began to be very nervous, I had no appetite and there was a feeling of beaviness around my heart, so bed at times that it seemed as if I couldn't get any air. I was so nervous always that any little thing would upset me. Nothing that I could do gave me any relief and it became an had that I was obliged to neglect my housework. I had nervous prostration.

"Some time in March, after I had been suffering for several mouths, I happened get a book that gave the statements of people who had suffered from com-claimts similar to mine and had been cured by Dr. Williams' Pink Pills for Pals People. I thought that if Pink Pills had might benefit me also and begun taking them. I telt a little better and that made me willing to give them a thorough trial I took the pills regularly for two mouths and by that time my health was completely restored.

"I am glad of this chance to tell how easily and thoroughly I was cured by Pink Pills for Pale People. I keep them in the house all the time and strongly recommend them to all who are afflicted
